## PROFESSIONAL SUMMARY

Salesforce AMER Technical Consultant with Master of Science in Human Communication Sciences and close to 2 years of experience in technical consulting with hands-on experience in server- and especially client-side development and Salesforce Core as well as Salesforce Industries configuration and extension. Proven team player in and across interdisciplinary and cross functional teams, who mentored 5 junior technical consultants and led a small group of developers on an insurance project to deliver high quality and best practice solutions.

## SKILLS

**Technical Skills in General:** Visual Studio Code, HTML, CSS and CSS Frameworks, JavaScript, JSON, XML, React.js, Node.js, Git, RESTful APIs, SQL, Microsoft Office, SPSS, SAS, agile methodologies

**Salesforce Skills:** Salesforce Platform, Lightning Web Components, Apex, SOQL, Experience Cloud (Communities), Lightning/ Newport Design System, OmniStudio (Vlocity) Tools

**Languages Spoken Fluently:** German (Mother Tongue), English

## EXPERIENCE

**Technical Consultant, [Salesforce.com AMER](#)** | 2/2022 - Present (Parental Leave since 1/2022)

**Associate Technical Consultant, [Salesforce.com AMER](#)** | 9/2020 - 2/2022

*Mentoring and leading a small team of junior technical consultants as Technical Consultant Team Lead since May 2021. Hands-on technical consulting and front and back end development experience on global and national insurance projects. Pod Lead of a small group of developers on the project.*

- Implemented Salesforce Core and Salesforce Industries declarative and out-of-the-box solutions, such as object and field level security and visibility, profiles, setting up community pages, branding, Omniscripts, DataRaptors, Integration Procedures and FlexCards
- Implemented customized programmatic solutions when declarative tools were not sufficient to fulfill customer requirements, such as Apex Classes, Lightning Web Components, Industries Insurance Package out-of-the-box Lightning Web Component Extensions, e.g. to develop a customized login and registration process or benefits section
- Pod lead of small group of developers related to specific EPIC on member portal for national health insurance company project, helped team to meet sprint deadlines and develop, test and deliver user stories on time by helping with technical questions, communicating with project manager, business analyst or customer to get clarification on user stories or proactively communicate issues with effective engagement with team, business analyst or project lead
- Contributed on multiple Proof of Concepts related to reusable OmniScript step overrides, custom login, registration, mobile publisher, in collaboration with the Technical Architect on the project
- Created multiple reusable lightning web components and OmniScript overrides with accessibility standards in mind that were used by the whole team throughout the member and employer portal
- Towards end of the project completed extensive code review on 50% of the project's code base and slides for detailed knowledge transfer to deliver to the customer
